**Medical Comments:** Tripped over suitcase as it suddenly crossed his path, being pushed by another traveler - falling onto right elbow and kneecap.

**ESH Comments:** The individual, a Guest Scientist Retired, was returning from the Pierre Auger Observatory in Argentina. Since the guest scientist was performing a work-related task, in this case returning from meetings at Pierre Auger in Argentina, the case meets the criteria for work-relatedness. The guest scientist had deplaned and was walking through a crowded Immigration area. Someone off to his side pulling a "wheelie" suitcase suddenly backed up, pushing the suitcase directly into the guest scientist. The guest scientist tripped over the bag and fell to the floor, landing on his right elbow and knee. He suffered only bruising, thus this is just a first aid case.

### Vehicle Accidents:

None

### ORPS/Incidents/Notices of Violations:
